Along with the success of the two previous activities “ITEC COFFEE”, it was held the third times by English Department at IELTS Saigon Coffee 14/3 Ky Dong street, District 3, Ho Chi Minh city. The purpose of this activity is to improve English communication. At that place, ITEC students had chances to get acquainted with more friends having the same hobbies “ Drink Coffee and Speak English” with the warm support of the speaker.

The discussion started with some small quizzes that aimed to encourage students to speak English as well as create the friendly atmosphere. The Speaking topics have been received many valuable comments from a large number of students. These topics were rather practical so it inspired students to raise their queries.

This last ITEC COFFEE was held at the ITEC MATES Organization's outside way by students from the ITEC COFFEE in this month. We hope that students will be able to enjoy a relaxed and pleasant time with friends and classmates.
