ELCA

Internship Program 2011

ELCA Vietnam is a 100% foreign-owned company with its headquarters in Lausanne, Switzerland. Since 1998, ELCA is today regarded as one of the leading IT companies in Vietnam with about one hundred talented engineers. We are developing customized software solutions for the Banking, Insurance, Healthcare, Ticketing, Government and Transportation industries.

At ELCA, state-of-the-art technologies in Open Source and .NET frameworks are used to implement large Information Systems and Web Applications. For engineers, ELCA is a unique working place to learn best practices as our Quality System is appraised at CMMI Level 3.

In August 2011 ELCA provides an internship program based on JAVA technologies as per attached program. Below are the topics during 4 weeks:

- ENGINEERING SKILLS**
 - Design Patterns, OO Concepts
 - Database Concepts, SQL
 - Application Security
- TECHNICAL KNOW-HOW**
 - JAVA and Important Classes
 - SpringMVC, JSP
 - Hibernate, Spring-EL4J
- PROCESSES**
