With the on-going development of our economy, the demand of workforce for Analysis segment in enterprise is huge. According to our statistics, there is 10% alumnus working in this field.

How analyst plays an important role in the enterprises? What do they really do?

What knowledge and requirement do we need to easily land a job in this field?

Are ITEC graduated students qualified for this field? Or in a broader sense, do they fit the whole working market in this industry?

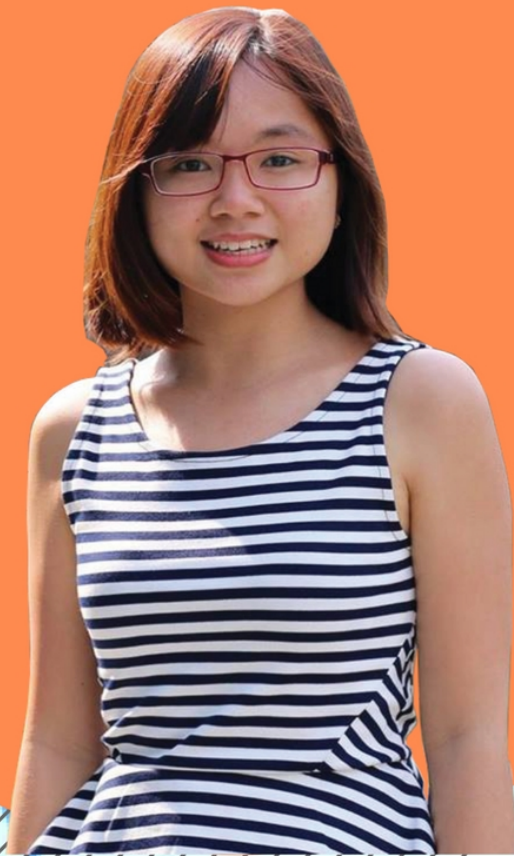

Everything will be resolved by our special guests Mr. NGUYỄN THÁI SƠN first-ranked graduated student in Cycle 4 from the International Program of Computer and Information Science, former founder of ITEC Music and former co-founder of ITEC Student Association.

Ms. Đoàn Thị n Hoa Nghiêm, former student in Cycle 4 from the International Program of Computer and Information Science
