The scholarship includes 100% tuition fee for the first semester and an opportunity of 50% discount in the following semesters until the student graduates from Keuka College. To gain the scholarship, students must attend an interview with the representative of Keuka College (the USA). The purpose of the interview is to re-test applicants English skills, their learning motives and career orientation. Obtaining sturdy results at ITEC, HCMUS is an advantage to persuade the Scholarship Council from Keuka College (the USA)

One of the benefits of learning at ITEC, Bachelor of Business Management, joint program between HCMUS and Keuka College, is students can choose between: finishing the program completely in Vietnam or transiting to Keuka College, the USA at any moment from the 2nd year, with great opportunities of earning scholarships as mentioned above. Either way, students shall learn with professor from the USA, involve in Experiential Learning and receive a Bachelor Degree in Business Management from Keuka College.
